

Updating to newer versions of GlasPac LX

Your success is our success.

Periodically, an updated version of GlasPac LX will be available. In order to ensure your success, please use the following guidelines:

- Before purchasing a new computer, please check with GTS to be sure that the new computer will support the newest versions of GlasPac LX.
- Please see the GlasPac LX 5.0 System Requirements document at: <http://www.gtscommunity.com/portal/docs/DOC-3203>
- In order to ensure that GlasPac LX can be supported on the system that you intend to install it on, please read the system requirements document carefully, paying close attention to the document details.
- Please do not install GlasPac LX on a system that does not meet the minimum requirements.
